Funded by the British Council's Digital Innovation Grant promoting Thai / UK partnerships: KT-Learning, Language Solutions & uTalk

The project successfully aligned with Thailand's Ministry of Education targets to improve the English level of English teachers and improve the quality of teaching in classrooms

Project Highlights

- TELT tests demonstrated 100% of participating teachers improved English level - often by +1 CEFR level
- 13 Thai Lead Teachers selected and mentored as teacher trainers and 'cascaded' training to peers
- Online Communities of Practice on Line allowed sustainable peer communities to share classroom experiences
- Weekly 'putting training into practice' classroom based activities.
- 180 hours of English practice for teachers and students on uTalk app.

Feedback from Teachers

"Every lesson we learnt new engaging activities which our students loved."

"My English and confidence has improved throughout the course."
